The Polish IT Sector explained

Qualified employees, high quality of provided services, innovativeness, dynamic growth, and economic competitiveness are distinctive features of the Polish IT/ICT sector. The aforementioned factors are also beneficial for gradual improvement of the branch of industry, which are also attractive for foreign investors, looking for business partners in Poland. Polish entrepreneurs agree that this is the best moment for introducing Polish services and products connected with the IT/ICT industry to foreign markets. It will be possible thanks to support of the Ministry of Economy, which unites Polish enterprises under the collective name of the Brands of Polish Economy and promotes them on international markets.
